

Talal Abu-Ghazaleh – Confucius Institute

TAG-Confucius Newsletter | Issue 109 - June 2025

TAG-Confucius Institute:

The Institute was established in September 2008 to introduce the Chinese language and culture, as well as achieving a greater mutual understanding between the Arab and Chinese cultures. This unique initiative is based on the cooperation agreement between TAG.Global and Confucius Institute in China. The Institute has been named after the great intellectual, mentor and philosopher, Confucius, whose ideas had influenced China and other regions around the world for over 2,000 years.

TAG-Confucius Institute is the first institute accredited by the Chinese Government to teach Chinese language in Jordan.

TAG-Confucius Institute is holding a new course to teach the basics of the Chinese language for beginners:

A. Threshold Level for Adults: starting 16/6/2025

Schedule: Monday - Wednesday from 6:00 – 8:00pm.

B. Threshold Level for Kids: starting 14\6\2025

Schedule: Saturday – Wednesday from 3:00 – 4:30 pm

***All Chinese language teachers are from China specialized in teaching Chinese language for foreigners and accredited by the Confucius Institute in China.**

Organized by Chinese International Education Foundation (CIEF)

‘Abu-Ghazaleh Confucius’ Participates in Training Program for Local Directors in Chongqing

CHONGQING - Talal Abu-Ghazaleh Confucius Institute (TAG-Confucius), a member of Talal Abu-Ghazaleh Global Digital (TAG.GD), has participated in a specialized training program for local Confucius Institutes’ directors, held at Southwest University (SWU) in Chongqing. The program was organized and sponsored by the Chinese International Education Foundation (CIEF), attended by 30 local directors representing 23 countries worldwide.

TAG-Confucius, established in 2008 as the first officially accredited Institute in Jordan by the Chinese government, dedicated to teaching the Chinese language and promoting Chinese culture, was represented by its Executive Director, Mr. Mamoun Abu Al-Shebaa’. The Institute also serves as the first certified testing center for Chinese Proficiency Test (HSK) in the Kingdom.

The opening ceremony was held in the presence of Mr. Zhao Lingshan, CIEF secretary-general, and Wang Jinjun, SWU president.

Mr. Lingshan delivered a lecture titled “The

Legacy and Development of Confucius Institutes,” outlining the ongoing efforts to enhance the design and innovative development of the Confucius institutes and to drive innovative growth. He went on to express optimism that such efforts would effectively contribute to the high-quality advancement of international Chinese education and foster cultural exchange between China and other nations.

For his part, Mr. Abu Al-Sebaa’ gave a presentation, highlighting the achievements

of TAG-Confucius Institute since its inception, including awards received and its contributions to promoting the Chinese language and culture across Jordan and the Arab region.

“The training program featured a rich variety of workshops and expert-led lectures covering topics such as Chinese history and culture, advancements in Artificial Intelligence (AI), and strategies for global brand development of Confucius Institutes, in addition to

curriculum development for Chinese language education,” Abu Al-Saba’ stated, adding that the “Participants also engaged in field visits to prominent cultural and industrial sites in Chongqing, including the Dazu Rock Carvings, the Changan Global Automobile Research & Development Center, and the Chongqing International Logistics Hub Park, where they explored key national development projects.

These visits provided valuable insights into China’s

economic development, educational reforms, scientific and technological innovation, and other initiatives in the central and western regions.”

During the closing ceremony of the training program, Mr. Abu Al-Sebaa’ delivered key remarks on behalf of the Asian delegation, which included directors of Confucius Institutes from Thailand, Malaysia, Indonesia, Nepal, Mongolia, Armenia, Kyrgyzstan, South Korea, and Jordan.

TAG-Confucius Institute Celebrates Both Dragon Boat Festival and International Children's Day

This year, the Dragon Boat Festival coincided with International Children's Day. To celebrate this special occasion where tradition met childhood joy, TAG-Confucius Institute (TAG-CI) meticulously planned and carried out a series of creative double-festival celebrations from May 31 to June 2, vividly conveying the unique charm of traditional Chinese culture to the students in a joyful and warm atmosphere.

In the video learning session, the teacher introduced the

origin and traditional customs of the Dragon Boat Festival and organized the students to watch a festival-theme video, allowing them to gain an intuitive understanding of traditional festival activities such as dragon boat racing, hanging mugwort, wearing sachets, eating zongzi (rice dumplings), etc. While watching, the students also learned relevant Chinese vocabulary.

The children were especially fascinated by the dragon boat races, enthusiastically

cheering for their favorite teams, creating a lively and warm atmosphere. Afterwards, the teachers tied five-color threads around the students' wrists, symbolizing protection from evil spirits and disasters, adding a sense of ritual to the festival.

In the hands-on experience session, the students from both the adult and youth classes participated in the "weaving zongzi" craft activity, which not only enhanced their practical skills but also deepened their

understanding of the festival's cultural significance.

Meanwhile, the children's class used paintbrushes to create Dragon Boat Festival-themed decorative paintings and crafted colorful "Dragon Boat Racing" pendants, showcasing their creativity and playful spirit.

The most popular activity among the students was the "Zongzi Blind Box Guessing Game". The teacher specially prepared a mysterious

"Zongzi Blind Box" for the children's class.

The children earned the chance to open the blind box by correctly answering questions related to the Dragon Boat Festival, which helped them review what they had learned while enjoying the excitement of winning exquisite small gifts. Each time a box was opened, the cheers and exclamations of surprise erupted in the room, creating an atmosphere of joy and laughter.

The double-festival celebration not only allowed students to learn about and experience traditional Chinese culture in a relaxed and enjoyable atmosphere, but also created warm and lasting memories during this special festival.

TAG-CI will continue to be committed to organizing creative and heartfelt cultural events to make Chinese learning more fun, loving and empowering!

Dalian

Dalian is a major sub-provincial port city in Liaoning province, People's Republic of China, and is Liaoning's second largest city (after the provincial capital Shenyang) and the third-most populous city of Northeast China (after Shenyang and Harbin). Located on the southern tip of the Liaodong peninsula, it is the southernmost city in both Liaoning and the entire Northeast.

Dalian borders the prefectural cities of Yingkou and Anshan to the north and Dandong to the northeast, and also shares maritime boundaries with Qinhuangdao and Huludao across the Liaodong Bay to the west and northwest, Yantai and Weihai on the Shandong peninsula across the Bohai Strait to the south, and North Korea across the Korea Bay to the east.

As of the 2020 census, its total population was 7,450,785 inhabitants of whom 5,106,719 lived in the built-up (or metro) area made of 6 out of 7 urban districts, Pulandian District not being conurbated yet.

Today, Dalian is a financial, shipping, and logistics center for East Asia. The city has a significant history of use by foreign powers for its ports. Dalian was previously known as “Dalniy”. The city used to be better known as “Port Arthur” and “Ryojun”

In 2016, Dalian ranked 48th in the Global Financial Centres Index. In 2012, Dalian ranked 82nd in the Global City Competitiveness Index . In 2006, Dalian was named China's most livable city by China Daily.

It is now a “Beta - Global City” according to the Globalization and World Cities Research Network. The large amount of port traffic makes Dalian a Large-Port Metropolis.

Dalian is one of the top 40 science cities in the world by scientific research as tracked by the Nature Index, ranking 37th globally in 2023.

The city is home to several major universities, notably Dalian University of Technology and Dalian Maritime University, members of China's prestigious universities in the Project 211, and the Dalian Institute of Chemical Physics of the Chinese Academy of Sciences.

History

Ancient

In the Qin and Han empires (221 BC – AD 220), the Chinese empire annexed Dalian Peninsula from the Korean state.

During the Sixteen Kingdoms era (3rd through 5th centuries), the Korean state of Goguryeo controlled this region. In the early Tang dynasty (618–907), the Dalian region formed part of Andong Prefecture in Jili state; during the Liao dynasty (916–1125), it was a part of Dong Jing Tong Liaoyang county.

Dalian was named Sanshan in the period of Wei Jin (220–420), San Shanpu in the Tang dynasty (618–907), Sanshan Seaport in the Ming dynasty (1368–1644), and Qingniwakou during the early modern era.
